I. GENERAL RULES & REGULATIONS

1. The proposed venture must be of an independent and scalable seed-stage startup seeking to raise external capital, and must address the entire business concept, including implementation and financial projection. Ventures that have generated revenue or raised external capital (beyond family and friends) prior to the current academic year are NOT eligible. Proposals for buy-out, expansion or development of an existing business, tax-shelter opportunities, real estate syndications, subsidiaries, franchisees and other consulting projects or analyses are NOT eligible. A venture that does not conform to this rule above will be IMMEDIATELY DISQUALIFIED.

2. Participants in the Thailand Competition must attend in person to be considered a part of the competition; those in the Global competition must attend virtually and therefore must have the necessary equipment to join our online competition.

3. The venture size, in terms of total funding requirements from outside investors (not yet received), must be at least US$500k. Methods of financing may be combined among bootstrapping, grants, angel/venture capital investments, and debt. A venture that does not conform to this rule above will have 10% deducted from the total presentation score in the relevant round.

4. The proposed venture must NOT be one that has previously competed in the presentation rounds of Bangkok Business Challenge before.

5. All currencies used throughout the competition must be in US Dollars only.

6. In all cases, the judges’ decision is final.

II. TEAM ELIGIBILITY

1. All full-time and part-time undergraduate and postgraduate students are eligible to participate.

2. Each team must contain TWO to FIVE members in total (excluding the faculty advisor).

3. Each team may have ONE non-student member in the team essential to the venture.

4. Each team must have the support of ONE faculty advisor from the institution the team represents, and must have most of the members be currently enrolled in this institution.
III. PHASES OF THE COMPETITION, TEAM SELECTION, AND GROUP ASSIGNMENTS FOR EACH PHASE

1.1. Each team is required to submit a Pitch Deck in accordance with the provided template at http://bbc.sasin.edu by 23:59 hrs. (Bangkok time) on Sunday January 3rd, 2021 (see section IV). All topics from the template must be included in the submitted Pitch Deck. Modifications to the submission may be done up to this deadline.

1.2. Each team may also submit a web link (URL) to a 60-second Video Pitch previously uploaded to YouTube, with access given to the organizers. This is optional, but highly encouraged by the judging panel.

1.3. Selected teams and their faculty advisors will be individually notified via email on Wednesday January 20th, 2021. Each team member and advisor must then confirm his or her Intention of Participation by replying to bbc@sasin.edu by Sunday January 24th, 2021.

1.4. Should any of the selected teams relinquish their right to participate further in the competition by failing to confirm their Intention of Participation within the deadline or otherwise, we reserve the right to invite the next best team to fill up the vacancy. A public announcement and draw of the selected teams will be made by Thursday February 4th, 2021. If, after the public announcement, any of the selected teams relinquish their right to participate further in the competition (despite having previously confirmed their Intention of Participation), we reserve the right to invite the next best team to fill up the vacancy. If such an eventuality is to be realized, the replacement team will be given at least 5 days from the moment of notification to submit their Full Written Business Plan.

1.5. We reserve the right to refuse participation in the subsequent year’s competition from institutions whose teams have confirmed their Intention of Participation but then fail to participate further in the competition in Bangkok. Under such an eventuality, the highest authority governing the concerned institutions (i.e. Rector/President of the University, Dean of the Faculty, etc.) will be formally informed in writing.

The Venture Exhibit will contribute to the judging criteria of the main presentation rounds, therefore at least one team member is required to stay by their display at designated times. The “Startup Showcase” prize will be awarded to the team that is most able to attract potential investors to their Venture Exhibit space, and is most effective in conveying the investment opportunity in a clear, concise, and enthusiastic manner.

Judges look more favorably upon growth-oriented businesses catering to large markets.

Each round will be evaluated via the following:

1. The First Round will be **solely** evaluated on the submitted Pitch Deck and (optional) Video Pitch.
2. The Semi-final Round will be evaluated on the submitted Written Business Plan (40%) and overall Business Viability (60%), as expressed in the Formal Oral Presentation and Venture Exhibit.

4. For the Thailand Competition, the Final Round will be solely evaluated on overall Business Viability, as expressed in the submitted Written Business Plan, Formal Oral Presentation and Venture Exhibit.

5. For the Global Competition, the Play-off and Final Rounds will be solely evaluated on overall Business Viability, as expressed in the submitted Written Business Plan, Formal Oral Presentation and Venture Exhibit.

The winning team from each group/round will be derived from the sum of the judges’ ranking for each team. Should there be any ambiguity from this method, the total raw scores will be used to determine the winner.

In all cases, the judges’ decisions are final.
